Conference Room G • 6130 Executive Boulevard • Rockville, MD**

Raymond J. Carroll, Ph.D.

Distinguished Professor of Statistics and Nutrition
Department of Statistics
Texas A&M University

Semiparametric Methods for Gene-Environment Case-Control Studies

The Epidemiology and Genetics Research Program (EGRP) manages a comprehensive program of grant-supported, population-based research that brings to bear the expertise of scientists to increase our understanding of cancer etiology and prevention. Scientists from throughout the United States and internationally are supported.
